

A recount of the cash in the U. S. treasury has disclosed a shortage of \$850. The amount will be made good by retiring treasurer, D. M. Morgan. This is a larger shortage than was found by Cleveland's first administration. Many will remember that the cry of the democrats was "turn the rascals out let us count the money." The people heeded the cry and turned them out and Grover and his cabinet got together to count the cash. They counted and counted for days and days and at last when they got through they found one cent missing and great was the consternation when it was found that the republicans had actually stolen one cent. The night after they got through the counting the colored woman, who swept the room found the missing cent under the table and it was taken up to Mr. Cleveland immediately, so that Grover didn't have to lose any sleep that night.

We want to hear just one sermon from the fellow who can beat the preacher preaching. We want to witness one day's teaching by the same fellow who can beat the teacher teaching. We want to watch the fellow do a day's plowing that can beat the farmer farming. And there is the fellow who knows more about medicine than all the doctors in the universe, we want to see him practice his art on himself for just one day. And then there is the fellow who can beat the editor, ten to one, in getting out a paper. We want to see what kind of a sheet he would issue from the press. The trouble with such characters is that they can not attend to their own business and therefore they think they know all about that of other people.—Hustler.

The Morristown and Cumberland Gap railroad was sold Saturday, afternoon for \$61,000. It was purchased by a Philadelphia capitalist, who, it is said, will build the road to Bristol and to Knoxville. This will give Knoxville competing lines.

Those Sevierville editors are not dwelling together in harmony. Words not blood, are flowing. Boys don't it ever strike you that your readers might get tired of your personal quarrels. Give them the good healthy, wholesome news of your county is our advise.

Rev. Sam P. Jones, the evangelist, will be a candidate for governor of Georgia.

Bankruptcy Bill.
This measure was the topic of discussion in the House of Representatives during the week. Party lines seem to cut no figure in the discussion. Many able speeches have been made for and against the measure. Notably may be mentioned, Congressman McRae against it, and Lanham and Burke for it. The result is to be will only be known by the final vote. The bill is in charge of Gen. Henderson of Iowa, and Terry of Arkansas.

COLLEGE NOTES.
The Steriopian Entertainment, given by Rev. W. A. Eisencart in the Chapel, was a complete success.
The scenes were very vivid and the explanatory remarks given by Mr. Eisencart were very appropriate and interesting. We could easily fancy that we were making a tour around the world as the many prominent ports and cities were presented. Some most beautiful scenes in the "Wonders of Nature" were also given. The views of "Pilgrims Progress" will add new interest to the reading of that famous book. The scenes in the "Life of Christ" were such as to cause us to imagine that we were in Palestine with Christ more than eighteen hundred years ago, witnessing his wonderful works and his life of purity.
We are under many obligations to Mr. Eisenhart for his services, as several dollars were taken in for the benefit of Bartlett Hall.
Roll Goddard of Knoxville was visiting home folks last week and was present at chapel on Thursday.
Roll took the business course under Prof. Warfel and now has a good position in Knoxville.
Last Monday Prof. S. T. Wilson, Rev. Jno. A. Silsby, H. M. Welsh and R. W. Post started for Cleveland, Ohio, to attend the Volunteer Convention.
The following is a partial report from the Gymnasium this week: Thos. A. Maguire, physical director, takes much interest in the audacious and frantic feats of our athletes.
D. F. Coldiron, who has been treated for "Big feet" has been reduced as to his feet, seventeen ounces and can now wear no. 11's instead of no. 12's.
Geo. W. Reed, has won the championship as a natural boxer, having developed wonderfully strong nerves and quick muscles by fanning off the gnats when he was a small boy.
Mr. Quist can now run a mile in forty eight minutes.
Green is having his neck stretched so he can talk to Miss Gosset without talking so loud.
S. O. Houston is gradually decreasing in stature by hard practice in the basement and physical director Maguire, thinks in the course of time that Houston can go to bed without doubling himself up.
H. S. Lyle won the best record this week in wrestling—McDonald and Belk were close behind however.
Fatty Marsh has gained two inches in height by stretching apparatus.
All these developments are wonderful and still greater things will follow.
The Series of revival meetings in our college closed Friday night in the midst of much interest. Very touching scenes transpired as Dr. Trimble parted with the students to whom had become so strongly attached. Thirty students professed conversion and many more were quickened in their religious life.
Last Sabbath night the aftermath meeting incident to the college revival was held in the Auditorium of New Providence Church. It was precious meeting. Nearly all the new converts added words of testimony to that of older christians who felt a quickening in their religious life through the meetings.

The prayer meeting on Tuesday evening was led by Prof. Goff. Subject: "Bearing fruit." The meeting was well attended and the subject was interesting.
The base-ball team was made to rejoice last Monday upon the receipt of \$35 from Mrs. Cyrus H. McCormick

of Chicago. The team now has money enough to purchase the best suits that are made.
During Prof. Goff's absence, the months of March, April and May, Miss Amanda L. Andrews will take the work in the Modern Languages. Prof. Barnes gives us the following concerning her education.
From childhood she was trained to speak and to read German and to read French. For several years she assisted her father, professor of History and Political Science in Marietta College, by reading to him German books and papers. In 1895 she was graduated from Lake Erie Seminary in a course practically collegiate.
After teaching a short time she resumed her studies at Marietta College, at the same time teaching two or three classes in the Preparatory department. She was graduated from this time honored institution in 1897 with the degree of B. Ph. "Magna cum laudi," and with "Honors in Philosophy." Both at Painsville and at Marietta the fellow students of Miss Andrews recognized her literary ability by electing her editor of a college paper.
Robert Jones, '94, now in Seminary at San Anselino, Cal. sends a letter to the Volunteer Band Leader. The following are extracts:—
I was very glad to hear of your in-

teresting Band meetings, and I trust the true mission spirit will thoroughly pervade the members of the Band and then of course their influence will be felt in the college. We have a committee in our Band to arrange suitable topics for each meeting, for one month ahead. Twice each term we have open meetings to which any who are interested are invited. We are to have charge of one of the regular Seminary prayer meetings soon. We have a Union of Volunteer Bands consisting of Bands in Northern California. Our last meeting was at Leland Stanford University. We had a good meeting and of course saw some very fine, or rather magnificent, buildings which belong to the University. They have over one thousand students enrolled. I am well pleased with this place for many reasons, the faculty is strong, surroundings favorable for obtaining practical experience in preaching. Medical school is near (which I shall attend next Summer) and the climate is excellent for study and of course for health. The foreign fields are near in more respects than one, and the west is the great battle ground for the church in our country.
I saw Kin shortly before he left for Japan, he seemed very cheerful and seemed delighted that he would soon be back to his home.
